

## Final Camera Ready Paper

Authors must prepare the final manuscript and submit it according to the following guidelines (they are described below):

- Modify your manuscript (if necessary) following the reviewers' recommendations and verify that your camera-ready paper complies with the IEEE format.
- Embed the Copyright Clearance Code (CCC) Notice.
- Prepare the IEEE Copyright Form.
- Submit the final manuscript and the IEEE Copyright Form.

### 1. Preparing the final camera-ready version

The Technical Program Committee has made an effort to thoroughly review all the submitted papers. Please follow their suggestions when you revise your paper. You should verify that your camera-ready paper complies with the IEEE format. The IEEE conference paper template can be downloaded from [here](#). All authors must submit their final camera-ready papers **before the 15th July 2016** even if there are no changes to the paper. Failure to do so may result in the paper not appearing in the proceedings.

### 2. Embedding the Copyright Clearance Code (CCC) Notice

The appropriate Copyright Clearance Code notice is to appear as a footnote on the bottom of the first page of each paper according to the guidelines set forth in the Cataloging/Copyright Instructions for an IEEE Conference Proceeding. Detailed instructions can be found at: <http://www.ieee.org/portal/pages/about/documentation/copyright/cfrmlink.html>.

- For papers in which all authors are employed by the US government, the copyright notice is: **U.S. Government work not protected by U.S. copyright.**
- For papers in which all authors are employed by a Crown government (UK, Canada, and Australia), the copyright notice is: **978-1-5090-2425-4/16/\$31.00 ©2016 Crown.**
- For papers in which all authors are employed by the European Union, the copyright notice is: **978-1-5090-2425-4/16/\$31.00 ©2016 European Union.**
- For all other papers the copyright notice is: **978-1-5090-2425-4/16/\$31.00 ©2016 IEEE.**

In the MS Word template you may replace the text in the existing footnote where it says "Identify applicable sponsor/s here. If no sponsors, delete this text box (sponsors)." with the appropriate Copyright Clearance Code (CCC) notice.

For LaTeX users:

- Use the **conference** document class from the IEEEtran package (<http://www.ieee.org/documents/IEEEtran.zip>).
- Add the CCC notice in the `\IEEEpubid{}` command. Copy this code instead of the one available in the template:

```
\IEEEoverridecommandlockouts

\IEEEpubid{\makebox[\columnwidth]{\hfill X-X-XXXX-XXXX-
X/XX/\$XX.XX~\copyright~2016 IEEE}
\hspace{\columnsep}\makebox[\columnwidth]{ }}
```

Where "x-x-xxxx-xxxx-x/xx/\\$xx.xx~\copyright~2016 IEEE" should be substituted by the appropriate CCC indicated above.

- Add the sponsors, if needed, in the `\thanks{ }` command of the authors definition.

### 3. Validating the PDF file through PDF Express

Your camera-ready manuscript should be converted into a PDF file and verified for Xplore compliance by IEEE PDF eXpress. Go to <http://www.pdf-express.org/> and convert your file to an IEEE Xplore compatible PDF file or check your PDF file for IEEE Xplore compliance. First-time users should do the following:

- Select "New Users" and click "Here".
- Enter the following information:
  - 38120X for the Conference ID.
  - Your email address.
  - A password.
- Continue to enter information as prompted.
- An online confirmation will be displayed and an email confirmation will be sent verifying your account setup.

Previous users of PDF eXpress need to follow the above steps, but should enter the same password that was used for previous conferences. Verify that your contact information is valid. You will receive an email receipt indicating that your camera-ready paper is PDF compatible.

### 4. IEEE Copyright © Form

IEEE policy requires that prior to publication all authors or their employers must transfer to the IEEE in writing any copyright they hold for their individual papers. Transferring copyright is a necessary requirement for publication, except for material in the public domain or which is reprinted with permission from a previously published, copyrighted publication. Upon transferring copyright to IEEE, authors and/or their companies have the right to post their IEEE-copyrighted material on their own servers without permission, provided that the server displays a prominent notice alerting readers to their obligations with respect to copyrighted material and that the posted work includes an IEEE copyright notice.

After a paper is accepted, you must obtain the IEEE copyright form, fill in the form, sign it and submit it to the submission system together with the final camera ready paper. The copyright form can be obtained from <http://www.ieee.org/documents/ieeecopyrightform.pdf>. In "IEEE Publication Title (Journal, Magazine, Conference, Book):" please write "**2016 International Conference on Indoor Positioning and Indoor Navigation (IPIN)**".

Detailed instructions can be found at:

<http://www.ieee.org/portal/pages/about/documentation/copyright/cfrmlink.html>.

### 5. Submitting the final camera-ready manuscript

Once you have followed (and completed) the previous guidelines, you can upload your final manuscript and the copyright form at [the following site](#), **no later than 15 July 2016**.
