

NEW PUBLICATION.

***El factor humano en el TISP. Investigación y testimonios de la primavera de 2020 / The Human Factor in TISP. Research and Testimonials of Spring 2020.*** Carmen Valero – Garcés (Ed). FITISPos- UAH. Alcalá de Henares : Servicio de Publicaciones de la Universidad , 2020. ISBN: 978-84-18254-15-4

Proceedings and **MORE** of the 7th International Conference on TISP, held at the University of Alcalá (UAH), Madrid, on March 26th- 27th 2020

The E- book ***The Human Factor in TISP. Research and Testimonials of Spring 2020*** is organized in five parts and combines written and audiovisual material. It gathers experiences and moments from before and after the 7th International Conference on TISP, held at the University of Alcalá (UAH), Madrid, on March 26th- 27th 2020. The congress quickly became a virtual event due to the COVID-19 pandemic and the state of confinement imposed on the country by the administration. Those days left moments and attitudes worth preserving. This is the best way we have found to bring together research and emotion in a single document that reflects the motto of the Conference: The Human Factor. The e-book includes:

Part I - Presentation –. It contains three welcome videos:

Video 1. Multilingual Opening of the 7th International Congress on TISP

Video 2. Welcome from the Dean of the Faculty of Arts at UAH

Video 3. Welcome message from the coordinator of the 7th International Conference on TISP and Director of the FITISPos Research Group at UAH

Part II - Introduction-. It contains a bilingual introduction.

Part III - Research in TISP-. It includes two plenary lectures in text and video format and a selection, in alphabetical order, of the scientific papers presented at the conference.

Part IV- Testimonials. It collects stories and images of the solidarity action #Estoybienytu (#Imok&you).

Part V- Closing. It includes a music video with images and English subtitles of the song Resistiré (I will resist).

Thank you for making this e-book possible.
